HANDMADE SCENTED CANDLES

Each glass is handcut by high quality craftsmanship with respect for the environment. This special craftsmanship gives the glass another dimension and different shades of unique intense colors. Such warm effect of a burning candle is unique in the world.

All candles are poured by hand into our luxury handcut glass. Created and inspired by intense colours and fragrances of nature, combined with excellent craftsmanship makes our candles unique. The subtle fragrances come from Grasse, France, the home of high class perfume, where we created each blend carefully.

PURE AMBIENCE
